

Convergentz

Our mission at Convergentz is to be the dependable and trusted option for advanced building automation integration and connected real estate solutions. This commitment has established us as an industry leader. Convergentz operates as a subsidiary of The Hunton Group, a prominent HVAC (Heating, Ventilation, Air Conditioning) company with five locations across Houston, TX, further reinforcing our position in the field.

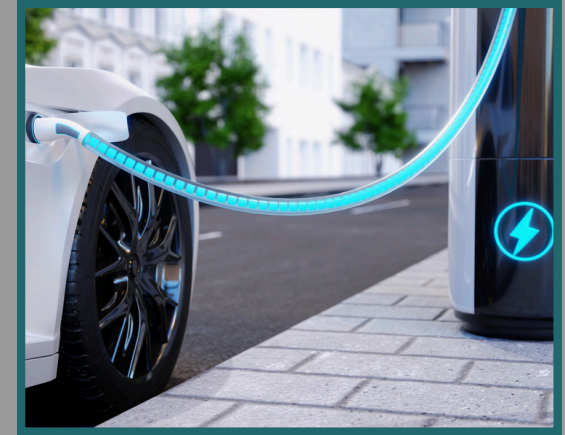

Unlock the Full Potential of Your EV Charging Network

Zevtron, in partnership with Convergentz provides a white-label, hardware-agnostic EV charging platform designed to empower businesses, utilities, municipalities, and commercial property owners with complete control over their charging infrastructure. Our enterprise-ready software supports multiple user groups, dynamic rate tables, seamless integrations, and advanced Parking Access Control (PARCS) compatibility, ensuring a frictionless EV charging experience across any location.

The Future of EV Charging Management in Partnership with Convergentz.
